## **GUIDED TOUR TO THE HISTORIC GARDENS "THE GROVE HOUSES"**

The garden is essentially made up of labyrinthine winding paths, delimited by granite stones where it is possible to observe the fauna that inhabits the Ecological Reserve, with frequent sightings of rabbits, squirrels and various birds Always in harmony with the landscape, there are several concrete structures, imitating wooden trunks. These, nowadays, are covered with moss due to the dense humidity of the winter months, and range from benches to nooks, fountains, lookouts, lake with grotto, small cool houses, bandstand and tower with bridge. At the top there are huge granite formations, the rocks, which also serve as living spaces with benches and tables that appear perfectly integrated into nature. The garden is part of the Historic Gardens of Portugal and its grove was classified as being of public interest in a publication in the Diário da República of March 25, 2019.

**27th to 29th september**
